REPORT NO.

Statistics compiled on 31 July 1951 show that 72,403 wounded and sick officers and men from units of the 4 Field Army fighting in Korea had been returned to the Central and South China Military Area by May 1951. About 15,000 were seriously wounded, over 17,000 were wounded in the legs, 23,000 require a long period of recuperation and 12,590 were slightly wounded. They will be returned to their units when they have recovered.
